

C6AM

Smart DC Charger

Overview

A reddot award winner, the C6AM is a standalone DC fast charger designed and built to be easy to own and intuitive to use with all types of vehicles. With over 5,000 units deployed globally across 25+ countries, the C6 is an absolute workhorse and tested through the harshest of conditions.

Highlights

+ 208Vac or 480Vac Configuration

208Vac 3-phase (125kW max output)
480Vac 3-phase (200kW max output)

+ Universally Compatible

The C6AM comes equipped with CHAdeMo, CCS and NACS (Tesla) connectors.

+ Dynamic Load Balancing

Automatically adjust power output according to the vehicle's requested charge rate or site characteristics, maximizing operating efficiency and charger utilization.

+ Flexible Payment Options

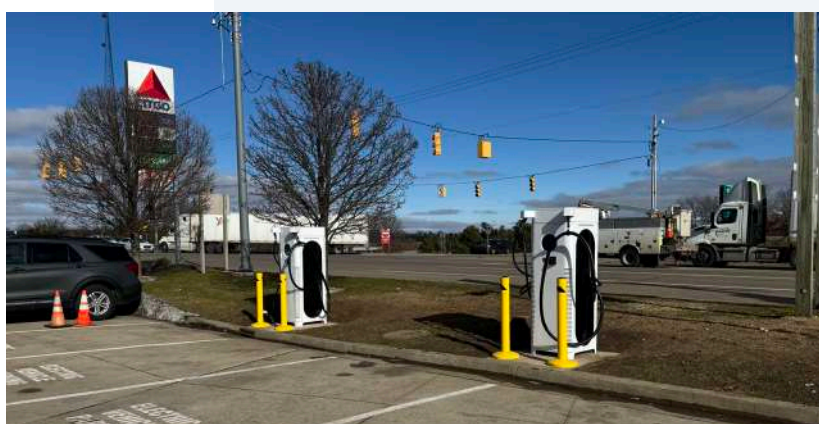

The C6AM can be configured with POS or RFID reader.

+ Cooling System

Patented Z-shaped wind channel increases cooling efficiency allowing for best-in-class performance.

About Us

SOS aspires to be at the forefront of the smart city revolution, specializing in sourcing, aggregating, and distributing renewable energy products that are sustainable and cost-effective. By working together, we will build a smart, sustainable infrastructure that supplies communities with safe, renewable energy that is affordable and reliable.

C6 is ideal for

- ✓ CPO / Utilities
- ✓ Public Infrastructure
- ✓ Bus Depots
- ✓ Commercial Fleets
- ✓ QSR/Convenience
- ✓ Hospitality
